

2023

Start-up Overview

Highlighted start-ups from the Rise Europe Member organizations in 5 industry clusters

European Start-up Landscape 2023

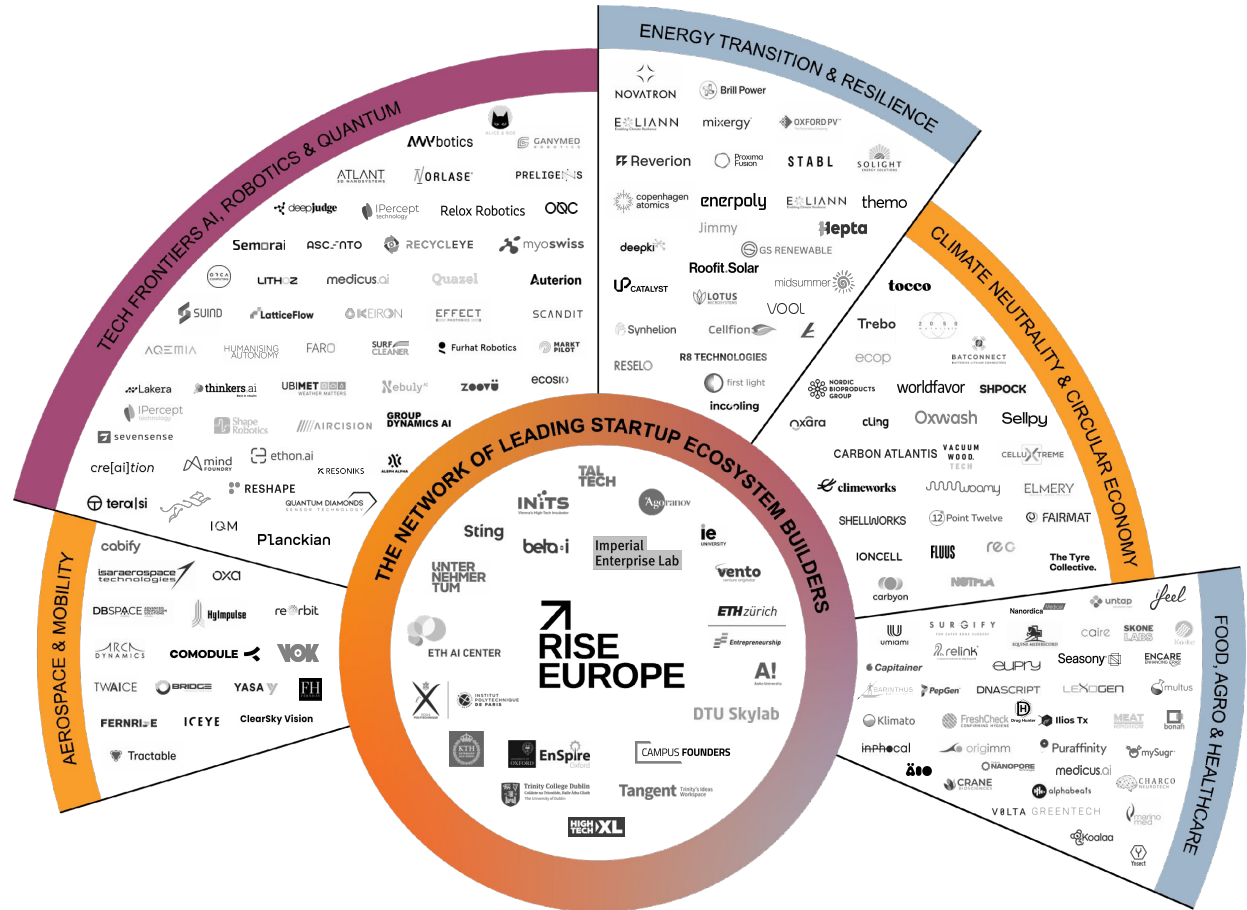

20 institutions / 14 countries

38.000 reached talents in 2022

3.200 supported start-ups in 2022

€7,8 bn VC funding in 2022

~10% of all European tech investments

Aircision
The Netherlands

Developing next-generation free space optics (FSO) systems for use in backhaul and enterprise networks.

→ aircision.com

Aleph Alpha
Germany

Pioneering sovereign, European AI technology to transform human-machine interaction that can find solutions for the challenges of tomorrow.

→ aleph-alpha.com

Alice & Bob
France

A quantum computer vendor with a mission to develop universal, error-free quantum computers.

→ alice-bob.com

Anybotics
Switzerland

Autonomous legged robots for industrial applications to provide high availability and reliability in automated routine inspections.

→ anybotics.com

Aqemia
Finland

A pharmatech company using quantum physics and artificial intelligence to transform the drug discovery process.

→ aqemia.com

Ascento
Switzerland

Secure, maintain and inspect your outdoor assets by reducing the intervention times and augmenting your data capturing capability

→ ascento.ch

Atlant
Denmark

Enabling on-demand micro and opto-electronics fabrication to make the air a smart matter.

→ atlant3d.com

Auterion
Switzerland

An operating system that empowers autonomous robots to perform high-risk to mundane tasks, deliver goods, and aid in life-saving missions.

→ auterion.com

Cheetah ai
Germany

Intelligent software to accelerate AI and optimize energy consumption in embedded applications.

→ cheetahai.org

cre[ai]tion
Germany

Interactive and adaptive AI-based platform that creates inspiration for designers, creatives, and artists.

→ creaition.io

DeepJudge
Switzerland

AI-powered Knowledge Search for legal professionals using natural language.

→ deepjudge.ai

Ecosio
Austria

Leading provider of B2B integration, specialising in electronic data interchange (EDI) and e-invoicing

→ ecosio.com

EffectPhotonics
The Netherlands

Independent photonic optical systems for high-performance, affordable optic solutions and faster data transfer capabilities.

→ effectphotonics.com

ethon.ai
Switzerland

Accessible software tools that empower manufacturers to detect, monitor, and prevent quality losses at scale.

→ ethon.ai

Furhat Robotics
Sweden

Furhat Robotics is a Conversational AI and Social Robotics company that is building the world's first social robotics and conversational system platform.

→ furhatrobotics.com

Ganymed
France

Developer of advanced software and robotics technologies for orthopedic surgeons.

→ ganymedrobotics.com

GROUP DYNAMICS AI

Group Dynamics AI
Germany

AI-tool for real-time analyzing and optimizing communication patterns, improving collaboration and decision-making.

→ [linkedin.com/company/group-dynamics-ai/](https://www.linkedin.com/company/group-dynamics-ai/)

HUMANISING AUTONOMY

Humising Autonomy
The Netherlands

Ensuring that any human/machine interaction is safe, efficient and – most importantly – more human.

→ [humanisingautonomy.com](https://www.humanisingautonomy.com)

IPercept technology

Ipercept
Sweden

Specialized in remote and stand-alone solutions for maintenance and operational improvement of industrial machinery

→ [ipercept.io](https://www.ipercept.io)

IQM

IQM
Finland

On-premises quantum computers for research laboratories and supercomputing centres.

→ [meetiqm.com](https://www.meetiqm.com)

KEIRON

Keiron
The Netherlands

Aiming to revolutionize the industry of printed electronics with their high-speed, lazer-based and agile printing process

→ [keirontechnologies.com](https://www.keirontechnologies.com)

Lakera

Lakera
Switzerland

LLM applications safe from data leakage, prompt injections, hallucinations, and other forms of attack.

→ [lakera.ai](https://www.lakera.ai)

LatticeFlow

LatticeFlow
Switzerland

Empowering ML teams to deliver robust and performant AI models by auto-diagnosing and improving data and models

→ [latticeflow.ai](https://www.latticeflow.ai)

LITHOZ

Lithoz
Austria

The world market and technology leader for 3D printers, materials and solutions for the industrial production of high-performance ceramics.

→ [lithoz.com](https://www.lithoz.com)

MANUS™

Manus-Meta
The Netherlands

Aiming to revolutionize the industry of printed electronics with their high-speed, lazer-based and agile printing process

→ [manus-meta.com](https://www.manus-meta.com)

MARKT PILOT

MARKT PILOT
Germany

Gain market insight on spare parts supply, prices, and delivery times.

→ [markt-pilot.com](https://www.markt-pilot.com)

mind FOUNDRY

Mind Foundry
England

A suite of tools, applications, and APIs to help you build and explore AI responsibly.

→ [mindfoundry.ai](https://www.mindfoundry.ai)

myoswiss

MyoSwiss
Switzerland

State-of-the-art training device for rehabilitation and physiotherapy, created to improve the quality of life of people with muscle weakness.

→ [myo.swiss](https://www.myo.swiss)

Nebuly^{AI}

Nebuly
the US

Nebuly automatically analyzes your LLM users' conversations, providing a complete understanding of user intent and satisfaction.

→ [nebuly.com](https://www.nebuly.com)

NORLASE™

Norlase
Denmark

Developing next-generation laser solutions for the treatment of retina and glaucoma disease.

→ [norlase.com](https://www.norlase.com)

Orca Computing
England

Developing full-stack photonic quantum computers with the aim to unlock new fields of applications, accelerate innovation and help transform industries.

→ [orcacomputing.com](https://www.orcacomputing.com)

OQC

Oxford Quantum Circuits
England

Building quantum computers to help to solve some of humanity's most significant challenges, from climate change to new drug discoveries.

→ [oxfordquantumcircuits.com](https://www.oxfordquantumcircuits.com)

Planckian

Planckian
Italy

Developing quantum batteries, the first technology for energy management powered by quantum mechanics.

→ planckian.co

PRELIGENIS

PRELIGENS
France
The Netherlands

AI technology to analyze GEOINT and MULTIINT data for the defense and intelligence industries.

→ preligens.com

QuantumDiamonds
Germany

QuantumDiamonds provides characterized nitrogen-vacancy (NV) diamonds for quantum sensing to industrial and academic customers.

→ quantumdiamonds.de

Quazel

Quazel
Switzerland

Language learner chatbot app that teaches people conversational fluency in a foreign language.

→ quazel.com

Recycleye
England

Bringing advanced machine learning, computer vision and robotics to the global waste management industry.

→ recycleye.com

Relox Robotics

Relox Robotics
Sweden

Developing task specific autonomous robots to help companies become more efficient and sustainable.

→ reloxrobotics.com

Reshape
Denmark

Transforming biological R&D by through automation and digitalization to scale experimentation and cross-disciplinary collaboration globally.

→ reshapebiotech.com

SCANDIT

Scandit
Switzerland

Smart Data Capture on smart devices for actionable insights and automates end-to-end processes by capturing data from barcodes, text, IDs and objects.

→ scandit.com

Semorai

Semorai
Germany

AI-as-a-Service-Solution for smart failure management in manufacturing companies

→ semor.ai

Shape Robotics
Denmark

Educational modular robot system for teaching STEM and 21st century skills to students ranging from 3rd grade to university.

→ shaperobotics.com

Sevensense
Switzerland

Enabling robots to safely and autonomously navigate in dynamic spaces shared with humans, in- and outdoors.

→ sevensense.ai

SUIND
Switzerland

Comprehensive crop healthcare system to improve the efficiency and sustainability of agriculture.

→ suind.com

RESONIKS
Germany

Quality control in manufacturing. Detecting anomalies by resonating objects and analyzing their acoustic response using AI

→ resoniks.com

SurfCleaner
Sweden

Developing the world's first skimmer separator hybrids for efficient removal, separation and recovery of contaminants floating on water surface

→ surfcleaner.com

TeraSi
Sweden

Making components and packaging for the next generation of wireless. We offer best-in-class performance, size and weight in a truly scalable platform.

→ terasi.io

thinkers.ai
Austria

Automating web research using AI technology to gather your needed information not only faster but also much more precise.

→ thinkers.ai

UBIMET

Ubimet
Austria

Empowers autonomous robots to perform high-risk to mundane tasks, deliver goods, and aid in life-saving missions.

→ ubimet.com

ZOOVU

zoovu
Austria

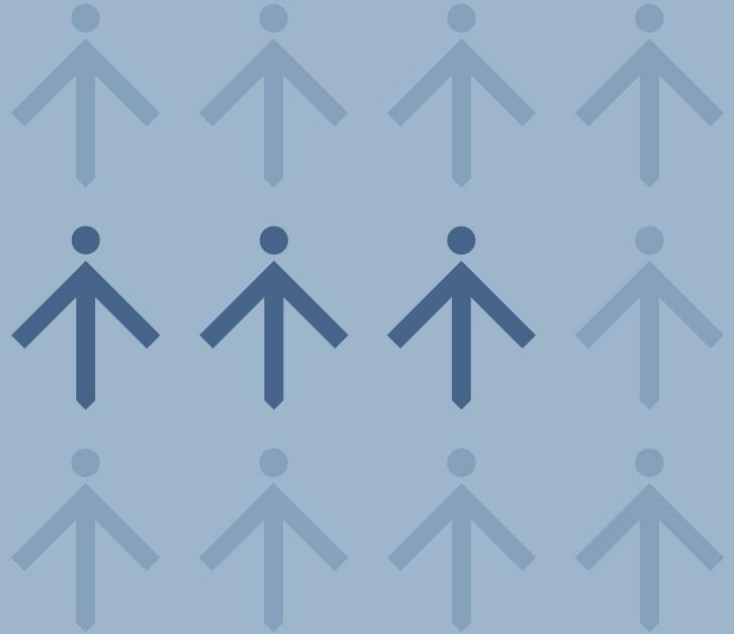

A platform that combines the best of product discovery and customer engagement to drive transformational growth for B2B and B2C brands.

→ zoovu.com

CLIMATE NEUTRALITY & CIRCULAR ECONOMY **START-UPS**

Batconnect
Carbon Atlantis
Carbyon
Celluxtreme
Climeworks
Cling
Ecop
Elmery
Fairmat
Fluus
Ioncell
Nordic Bioproducts Group
Notpla
Oxara
Oxwash
Point Twelve Energy
Sellpy

Shpock
The Shellworks
The Tyre Collective
Tocco
Trebo
Vacuum Wood Tech.
Woamy
Worldfavor
2050 Materials

CARBON ATLANTIS

Carbyon
The Netherlands

Batconnect
France

Batconnect's energy storage smart solutions are striving towards a sustainable, reliable and connected energy storage ecosystem.

→ batconnect.fr

Carbon Atlantis
Germany

Developing a first-of-a-kind, low-cost Direct Air Capture (DAC) technology to remove CO2 from the air.

→ carbonatlantis.com

Celluxtreme
Sweden

CelluXtreme has a unique technology for spinning strong continuous fibres from 100% cellulose.

→ celluxtreme.com

Climeworks
Switzerland

Specializing in direct air capture technology. The company filters CO₂ directly from the ambient air through an adsorption-desorption process.

→ climeworks.com

Cling
Sweden

Cling's b2b market platform aggregates used li-ion batteries from car dismantlers, repair workshops, production lines, and other collectors worldwide.

→ clingsystems.com

Ecop
Austria

Helping industrial companies and heat manufacturers achieve climate targets, operate sustainably and save costs.

→ ecop.at

Elmery
Finland

A patented unique metal recovery method for refineries – to increase cost-efficiency, sustainability and boost circular economy.

→ elmery.fi

Fairmat
France

Sustainable alternative to traditional methods of dealing with carbon fiber composite waste, scraps, and end-of-life parts

→ fairmat.tech

Fluus
England

Providing certified flushable and biodegradable period pads are highly absorbent and effortless to dispose away

→ wearefluus.com

Ioncell
Finland

Ioncell® is a technology that turns used textiles, pulp or even old newspapers into new textile fibers sustainably and without harmful chemicals.

→ ioncell.fi

Nordic Bioproducts Group
Finland

Intelligent biotechnologies and circular innovations intended to redesign cellulose into high-value bioproducts.

→ nordicbioproducts.fi

Notpla
England

Developing sustainable packaging from seaweed and plants that biodegrades in weeks, naturally.

→ notpla.com

Oxara
Switzerland

Making components and packaging for the next generation of wireless. We offer best-in-class performance, size and weight in a truly scalable platform.

→ oxara.earth

Oxwash
England

Upcycling of construction waste and excavation materials in a wide range of concrete and block applications.

→ oxwash.com

Point Twelve Energy
Germany

A SaaS Platform that enables energy-intensive goods producers to easily and continuously certify their green production, saving time in the process.

→ point-twelve.energy

Sellpy

Sellpy
Sweden

Online second-hand shop that handles the entire process from picking the items up from the sellers home, to listing, selling and shipping.

→ sellpy.com

SHPOCK

Shpock
Austria

A marketplace and classifieds platform that brings millions of local private buyers and sellers together.

→ shpock.com

SHELLWORKS

The Shellworks
England

Creating sustainable alternatives to plastic packaging waste that is easy to throw away without harming the environment.

→ theshellworks.com

Trebo

Trebo
Denmark

Recycle what beforehand was considered plastics waste - a cost-effective and sustainable solution for industrial plastics waste.

→ trebo.dk

Tocco

Tocco
France

Building the world's largest alternative and regenerative materials platform to connect purpose-driven suppliers with innovative brands.

→ tocco.earth

The Tyre Collective
England

Spearheads the capture and monitoring of tyre wear, accelerating the shift towards zero-emission mobility.

→ thetyrecollective.com

Vacuum Wood Tech.
Finland

Solutions for sustainable constructions for even the most demanding conditions with 100+ years life cycle.

→ vacuumwood.tech

Woamy
Finland

Developing innovative bio-materials, such as foam derived from wood and agricultural waste that is reusable and biodegradable.

→ woamy.com

worldfavor

Worldfavor
Sweden

Worldfavor's sustainability platform enables organizations to easily access, share, and leverage data to gain insights and make sustainable actions.

→ worldfavor.com

2050 Materials
Cyprus

Centralises all sustainability data into a single platform, enabling designers to save time and money at any project stage.

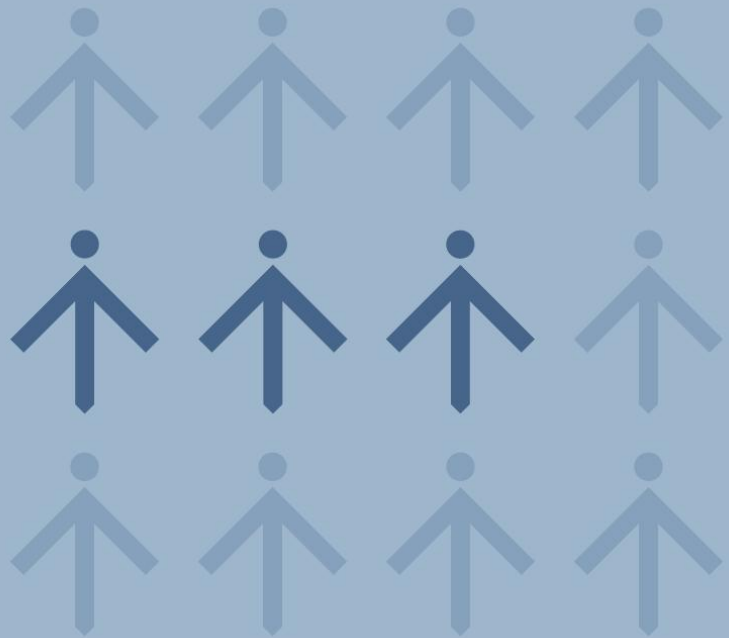

→ 2050-materials.com

FOOD, AGRO & HEALTHCARE START-UPS

AlphaBeats
Bonafi
Caire
Capitainer
Charco Neurotech
Crane Biosciences
DNA Script
Drug Hunter
Encare
Equinemedirecord
Eupry
Ifeel
Ilios Therapeutics
InPhocal
Klimato
Koalaa
Koite Health
Lexogen
Marinomed

Meat Tomorrow
Medicus AI
Multus
mySugr
Nanopore
Nanordica Medical
Origimm
Paperbox
PepGen
Puraffinity
Seasony
SkoneLabs
Surgify Medical
TADA Group (ReLink)
The Fresh Check
Umiami
Untap
Barinthus Biotherapeutics
Volta Greentech

Ynsect
äio tech

AlphaBeats
The Netherlands

Enhance sport-specific cognitive performance with patented neurofeedback system for alpha brainwave control.

→ listenalphabeats.com

Bonafi
Ireland

Streamlining the customer and supplier qualification cycle in the pharmaceutical industry through automation and digitalization of a traditionally manual process.

→ bonafi.ie

Caire
Germany

Building AI agents that are able to extract health information from the face by leveraging AI.

→ caire.ai

Capitainer
Sweden

Convenient near-patient blood sampling solution enabling patients to collect and mail samples for laboratory analysis..

→ capitainer.se

Charco Neurotech
England

Developer of the CUE1, a non-invasive, wearable, medical device for people with Parkinson's, to improve movement and quality of life.

→ charconeurotech.com

Crane Biosciences
the US

Building a platform to hide therapies from the immune system, preventing immune reactions and creating successful treatments.

→ cranebio.com

DNA Script
France

A disruptive DNA synthesis company harnessing biology to accelerate breakthroughs in life science and human health.

→ dnascript.com

Drug Hunter
Estonia

Drug Hunter Analyser is a portable roadside analyser for illegal drugs of abuse determination in oral fluid sample.

→ drughunter.eu

Encare
Sweden

Improving patient outcomes through collaboration and best practice with the world's leading ERAS® implementation program and platform solution for hospitals

→ encare.net

Equinemedirecord
Ireland

Developing, selling and maintaining an award winning software platform to help horse trainers/owners comply with equine welfare regulations

→ equinemedirecord.com

Eupry
Denmark

Offering a full range of solutions for monitoring and validating temperature, CO2, humidity, and pressure in regulated industries.

→ eupry.com

ifeel
Spain

All-in-one data-based platform for organisations to provide a holistic understanding of your employees' mental well-being

→ ifeelonline.com

Ilios Therapeutics
the US

Innovative Chemistry Platform Generating Therapeutics for Neurodegenerative Diseases.

→ iliostx.com

InPhocal
The Netherlands

Sustainable inkless printing on all kinds of materials and surfaces, using 50x less energy than a conventional inkjet printer

→ inphocal.com

Klimato
Sweden

Minimizing food's climate impact by assisting restaurants and providers in measuring, sharing, and reporting dish-level carbon footprints.

→ klimato.co

Koalaa
England

Supplies affordable and comfortable upper limb prosthetics to adults and children directly, online and to NHS or private clinics.

→ yourkoalaa.com

Koite Health
Finland

A health technology company and innovator in light-activated antibacterial solutions for treating and preventing oral diseases.

→ koitehealth.com

Lexogen
Austria

Offering innovative top quality RNA analysis solutions & support, in order to improve health and well-being for everyone and our planet

→ lexogen.com

Marinomed
Austria

Developing innovative patent-protected products in the therapeutic areas of immunology and virology.

→ marinomed.com

Meat Tomorrow
Denmark

A cultivated meat company dedicated to the production of sustainable pork from pluripotent stem cells.

→ meattomorrow.com

Medicus AI
Austria

AI-platform that converts health data into an interactive experience with easy-to-understand explanations, personalized health insights and smart wellbeing coaching.

→ medicus.ai

Multus
England

Developing the key ingredient, the growth media, to make cultivated meat affordable and profitable.

→ multus.bio

mySugr
Austria

Creating simple, effective solutions that serve people with diabetes, as well as organizations that manage populations with diabetes.

→ mysugr.com

Nanopore
England

Developing nanopore DNA and RNA sequencing platform with real-time data, scalability, and rich biological insights.

→ nanoporetech.com

Nanordica ^{Medical}

Nanordica Medical
Estonia

Developing advanced antibacterial wound care products to avoid infection-related amputations.

→ nanordica.com

Origimm
Austria

Specializing in the discovery of virulent skin microbiome components and antigens from bacteria causing skin disease, such as acne.

→ origimm.com

Paperbox
Italy

Creating gaming solutions to make the early identification of cognitive issues totally accessible and providing a digital end-to-end path to the patient

→ paperbox.health

PepGen
the US

Developing therapeutics to target genetic disease root causes, initially focusing on neuromuscular diseases.

→ pepgen.com

Puraffinity
England

Specializing in eco-friendly advanced materials for pollutant removal in water and wastewater..

→ puraffinity.com

Surgify Medical
Finland

Developer of a product that will make bone surgery safer, more accurate and faster while preventing injury to surrounding soft tissue.

→ surgifymedical.com

Seasony
Denmark

An AgTech/ Robotics company helping vertical farmers and greenhouse operators reduce their labour cost and improve their business.

→ seasony.io

SkoneLabs
Germany

Provider of services to reduce food waste in the fresh food industry by leveraging IoT and AI

→ skonelabs.com

**TADA Group
(ReLink)**
Sweden

An advanced IV line breakaway connector, designed to minimize complications and costs in healthcare by preventing accidental disconnections.

→ tadagroup.se

**The Fresh
Check**
England

Offering fast, simple, and low-cost solutions to verify hygiene in the food, hospitality and healthcare industries.

→ freshcheck.co.uk

Umiami
France

Foodtech company offering plant-based meat and fish fillets to the food industry.

→ umiami.com

Untap
England

Viral outbreak early warning system that detects and prevents transmission in your community, before symptoms are identified

→ untaphealth.com

**Barinthus
Biotherapeutics**

England & US
Developing novel T cell immunotherapeutics that guide immune system to overcome chronic infectious diseases, autoimmunity and cancer.

→ barinthusbio.com

Volta Greentech
Sweden

Feed supplement which when fed to cows at a daily dose of 100 grams, reduces their enteric methane emissions by up to 90%.

→ voltagreentech.com

Ynsect
France

Revolutionizing the food industry by transforming mealworms into premium, high-value ingredients for animals, plants, and humans.

→ ynsect.com

äio tech
Estonia

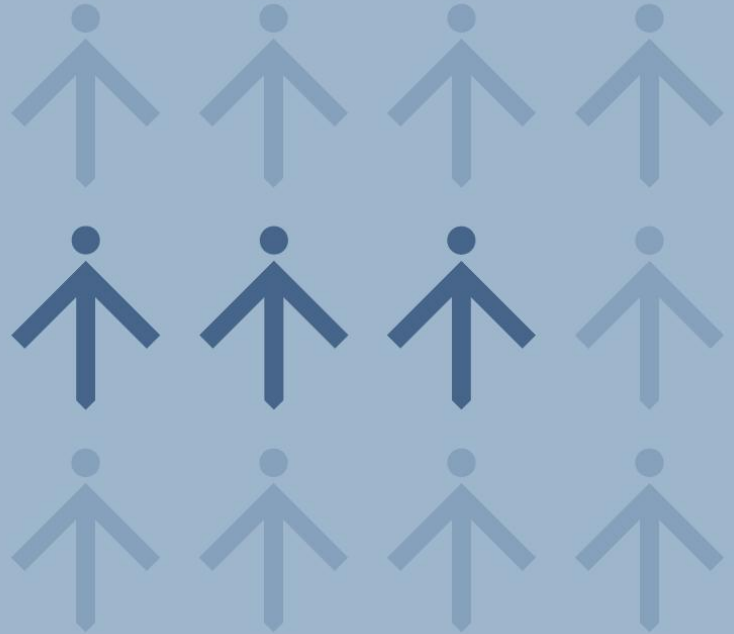

Replacing palm oil, coconut oil and animal fats with sustainable and healthier alternatives

→ aio.bio

AEROSPACE & MOBILITY START-UPS

Arca Dynamics
Bridge Logistica
Cabify
Clearsky
Comdule
DBSpace
Fernhay
Ferride
Hyimpulse

Iceye
IsarAerospace
Oxbotica
Preligens
Reorbit
Twaice
Vok Bikes
Yasa

Arca Dynamics
Italy

A New Space company providing innovative solutions for environmental and Space exploitation sustainability.

→ arcadynamics.space

Bridge Logistica
Italy

Logistics partner for digitally managing road transport for LTL (Less-Than-Truckload) and FTL (Full-Truck-Load) shipments.

→ bridgelogistica.it

Cabify
Spain

Multi-mobility platform for people and objects that offers various alternatives to reduce urban travel in private cars.

→ cabify.com

ClearSKY Vision
Germany

Removing clouds, cloud shadows, and image artifacts from optical Sentinel-2 images using state-of-the-art artificial intelligence, optical imagery and radar imagery.

→ clearsky.vision

Comodule
Estonia

Providing connectivity solutions for light eclectic vehicles to make emission-free urban transport safer and smarter.

→ comodule.com

DBSpace
Italy

Developing next generation turbomachinery to enable a more cost-effective, flexible and reliable space propulsion.

→ dbspace.technology

Fernhay
England

Fernhay's zero-emission equipment enables parcels to be efficiently delivered across cities where vans don't make sense.

→ fernhay.com

Fernride
Germany

FERNRIDE offers scalable automation solutions for yard trucking. Company's human-assisted autonomy approach allows for remote takeovers of trucks when necessary.

→ fernride.com

Hyimpulse
Germany

Developer of a game-changing European small Launcher for small Satellites both for private and public sector.

→ hyimpulse.de

Iceye
Finland

Microsatellite manufacturer which is developing a suite of products for humanitarian aid and disaster response.

→ iceye.com

IsarAerospace
Germany

Developing next generation rockets for sustainable access to space for small and medium satellites and satellite constellations.

→ isaraerospace.com

Oxbotica
England

Building self-driving software and services that enable customers to deploy and benefit from autonomy in their operations sooner.

→ oxa.tech

Preligens
France

Developer of artificial intelligence (AI) technology to analyze GEOINT and MULTIINT data for the defense and intelligence industries.

→ preligens.com

Reorbit
Finland

Cutting-edge small satellite platform, autonomously networking and operating in orbit with a software-first approach for flexible missions in any orbit.

→ reorbit.space

Twaice
Germany

Make impactful, data-driven decisions using reliable insights from the leading AI-supported battery analytics platform.

→ de.twaice.com

Vok Bikes
Estonia

Smart, safe, and sustainable e-cargo bike designed for busy cities and efficient deliveries.

→ vokbikes.com

Yasa
England

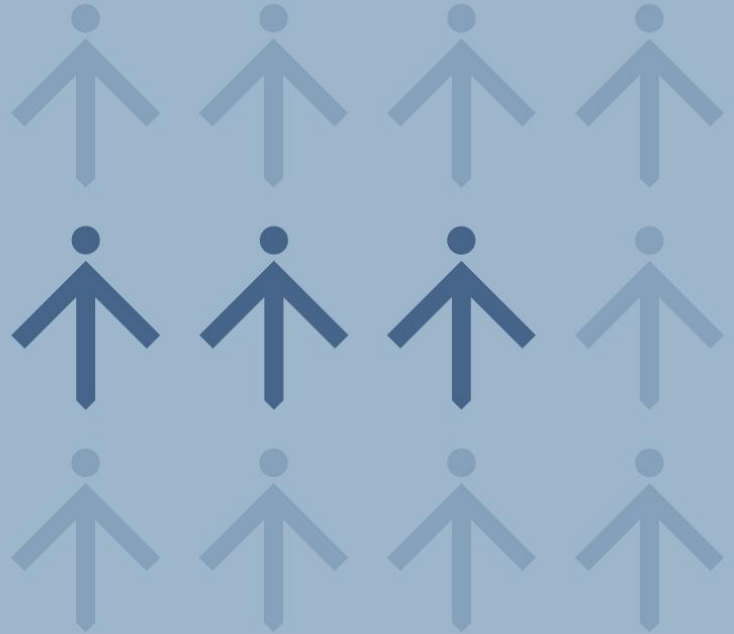

Axial flux technology motors that are up to 4x more powerful and around 50% smaller and lighter than typical EV motors on the road today.

→ yasa.com

ENERGY TRANSITION & RESILIENCE **START-UPS**

Brill Power
Cellfion
Copenhagen Atomics
Deepki
Endeema
Energypoly
Eoliann
First Light Fusion
GS Renewables
Hepta Airborne
InCooling
Jimmy Energy
Lotus Microsystems
Midsummer
Mixergy
Novatron
Oxford PV
Proxima Fusion

R8 Technologies
Reselo
Reverion
Roofit solar
So Light Energy
STABL
Synhelion
Themo
Up Catalyst
VOOL

Brill Power
England

Brill Power's platform enhances EV and stationary energy storage with longevity, performance, cost, and sustainability advancements.

→ brillpower.com

Cellfion
Sweden

Bio-based membranes and nanoparticle dispersions for energy storage and conversion devices manufacturing and commercialization

→ cellfion.se

Copenhagen Atomics
Denmark

Pioneering thorium molten salt reactors, a solution that burns nuclear waste to generate abundant and cost-effective green energy.

→ copenhagenatomics.com

Deepki
France

Providing a fully populated ESG data intelligence platform combined with expert advisory services to help real estate owners reduce their carbon footprints.

→ deepki.com

Endeema
Germany

Endeema offers B2B software that predicts the cheaper renewable energy supply in the grid's electricity mix

→ endeema.com

Enerpoly
Sweden

Developing and manufactures zinc-ion batteries to deliver breakthrough affordability in stationary energy storage.

→ enerpoly.com

Eoliann
Italy

Leveraging satellite data and proprietary ML algorithms to forecast the probability and impact of specific climate risk events.

→ eoliann.com

First Light Fusion
England

First Light Fusion Ltd is a lean, focused and agile corporation researching energy generation by inertial confinement fusion..

→ firstlightfusion.com

GS Renewables
Ireland

Specializing in modular heat pump plantrooms, industrial and commercial heat pump solutions, and sustainability consultancy.

→ gsrenewable.com

Hepta Airborne
Estonia

Offering an easily deployable end-to-end inspection solution for large networks, such as smart software and analytics.

→ heptaairborne.com

InCooling
The Netherlands

Developer of the next generation 2 phase cooled servers dedicated to achieving the fastest and greenest compute in the world.

→ incooling.com

Jimmy Energy
France

A supplier of carbon-free industrial heat to industrialists relying on nuclear micro-reactors.

→ jimmy-energy.eu

Lotus Microsystems
Denmark

Offering original equipment manufacturers reliable, innovative, energy-efficient power supply units.

→ lotus-microsystems.com

Midsummer
Sweden

Offers and installs eco-friendly, locally-manufactured solar cell roofs with 90% less carbon footprint than traditional panels.

→ midsummer.se

Mixergy
England

Creating smart, eco-friendly hot water tanks for better living, savings, and environmental impact reduction.

→ mixergy.co.uk

Novatron
Sweden

NOVATRON™ reactor design is a new solution for stable plasma confinement and a significant step towards fusion power generation.

→ novatronfusion.com

Oxford PV
England

Developing affordable, high-efficiency solar photovoltaics enhancing standard silicon cells' performance.

→ oxfordpv.com

Proxima Fusion

Proxima Fusion
Germany

QI stellarators will be the power plants of the future, complementing renewables and offering clean, abundant and safe energy for all.

→ proximafusion.com

R8
tech

R8 Technologies
Estonia

Reducing energy use and CO2 emissions in premium commercial properties while maintaining exceptional indoor climate throughout.

→ r8tech.io

RESELO

Reselo
Sweden

Developing novel biomaterials from abundant biomass feedstocks as alternative to fossil-derived rubbers and plastics.

→ reselo.se

Reverion

Reverion
Germany

Paving the way to 100% renewable, decarbonized future by making the most of biogas with their next-gen power plant

→ reverion.com

Roofit Solar

Roofit solar
Estonia

Award-winning fully integrated solar roofs that combine the traditional Nordic metal roof design with progressive solar technology.

→ roofit.solar

So Light Energy
the US

One stop shop providing wide range of related products and services for all your solar needs and energy efficient upgrades.

→ solightenergy.com

STABL

STABL
Germany

STABL's easy-to-integrate technology improves battery storage systems in terms of design, safety, reliability, cost-effectiveness, and handling.

→ stabl.com

Synhelion
Switzerland

A clean energy company that has developed a unique technology to produce sustainable solar fuels from solar energy.

→ synhelion.com

themo

Themo
Finland

Helping its clients to reduce their energy consumption and the carbon footprint of their electric heating through IoT-solutions.

→ themo.io

UP CATALYST

Up Catalyst
Estonia

Producing sustainable carbon nanomaterials from CO2 or waste biomass for diverse applications, incl. advanced batteries and biomedicine.

→ upcatalyst.com

VOOL

VOOL
Estonia

The first complete EV charging solution offering reliable, smart, and cost-efficient charging for business and private customers

→ vool.com
